Norwegian Artificial Intelligence Research Consortium

***Make sure to get all the latest news  
about artificial intelligence, machine learning  
and robotics - [Subscribe to NORA's newsletter here!](#)***

---

## *Artificial Intelligence will change health sector*

Read NORA's CEO Klas H. Pettersen's article in The Journal of the Norwegian Medical Association about Artificial Intelligence and health services.

(In Norwegian)

---

## ***Alt. future – Cutting Edge Festival 24 October 2019***

This year the Cutting Edge Festival will focus on solutions to the big challenges our world is facing, and how science, innovation and technology can shape an alternative and sustainable future for our civilisation. NORA's CEO Klas H. Pettersen will moderate an expertpanel which will discuss Artificial Intelligence under the title "Man & Machine - A love story".

---

### *EHiN 2019 – Norway's national e-health conference*

EHiN is short for e-health in Norway and is the biggest conference in Norway targeting the digitization of the health sector. EHiN will be held 12-13 November 2019 at Oslo Spektrum. Several NORA-partners will both be present and take active part in the program and workshops at EHiN 2019.

*PostDoc Position on  
bridging scientific  
computing and  
machine learning at  
Simula*

*PhD Research Fellow  
in Scientific and  
Computing in Machine  
learning at  
Department of  
Mathematics, UiO*

*MMIV Conference 2019*

Welcome to the second MMIV conference on December 9th and 10th at Bikuben conference center, Haukeland University Hospital, Bergen. The main theme of the conference is convergence of medical data science for improved patient care.

---

## ***Autonomous drilling for greener and more efficient oil and gas production***

During 2019, the most advanced automated drilling system will be tested for the first time, by NORCE researchers.

---

## ***What's on? Upcoming public lectures, seminars and conferences***

**DIGI-B-CUBE Sectoral Workshop at EHiN 2019: Digital Health Innovations Disrupting Medical Diagnostics and Precision Medicine**

**Date and place:** November 12 – 13 November, Oslo Spektrum arena

### **Northern Lights Deep Learning Workshop 2020**

**Date and place:** 20-21 January, Tromsø

### **AIM North Symposium 2019**

**Time and place:** 7 November 2019, Place: OsloMet

**Hans De Sterck, University of Waterloo, Canada** (*the seminars are open to everyone*)

**Time and place:** 20 November, 12:00-13:00, Pilestredet 52, OsloMet AI Lab

Do you miss your public lecture, seminar and conference related to artificial intelligence, machine learning and robotics in this list? Please let us know at [contact@nora.ai](mailto:contact@nora.ai).

## ***Communication at NORA***

Do you have any questions, inquiries or want to share information on NORA webpage or newsletter, please contact us at [contact@nora.ai](mailto:contact@nora.ai).

---

You have received this newsletter because you have subscribed to the NORA newsletter, participated at the NORA kick-off or because you work at one of the NORA-partners and we believe you have an interest in artificial intelligence, machine learning or robotics.

If you have not **subscribed to our newsletter, invitations and other relevant information**, [please click here to subscribe.](#)

Do you not want to receive information from NORA, please let us know at [contact@nora.ai](mailto:contact@nora.ai)
